VIP MD-83 Fleet

MD-83's N949NS & N831US are all VIP aircraft that offer a versatile and flexible platform for your incentive, corporate or sports team demands including the large cargo capacity and long-range capabilities only found in transport category aircraft. These MD-83 are designed and built around the specific demands of live entertainment touring, professional sports teams, diplomatic and corporate missions.

Both aircraft offer a unique cabin configuration with a V-VIP forward cabin and VIP aft cabin, and they are the only North American based FAR-121 VIP Airliner known to offer free Wi-Fi and phone service throughout the cabin. These aircraft also offer in-seat power for client devices like computers, music players and video players.

These aircraft offer extra comfort with 75 inches of leg room for the first 12 V-VIP seats; there are 40 additional VIP seats with 51 inches of leg room. There are 4 table stations, 2 fore and 2 aft, with First Class Club Seating. These tables provide a private area for meetings, in-flight entertainment or a gourmet meal. Equipped with a hot/cold galley, these aircraft have the ability to accommodate VIP catering and service.

- V-VIP Legroom of 75 inches
- VIP Legroom of 51 inches
- 4 Table stations with Club Seating
- Executive first class meals
- Wi-Fi Throughout the cabin
- In-Seat Power at all seats
