

## McDonnell-Douglas MD-83 Overview

Private Jet Group proudly announces the only MD-83 configurable for VIP or coach configurations. This air charter offers a versatile and flexible platform for your incentive, corporate or sports team demands. Including the large cargo capacity and long-range capabilities only found in transport category aircraft

This MD-83 was built around the specific demands of Live Entertainment Touring groups, including professional sports teams, rock tours, and diplomatic and corporate missions.

This aircraft offers a unique cabin configuration with a VVIP forward cabin and VIP cabin, and is the only North American based FAR-121 VIP Airliner known to offer Wi-Fi throughout the cabin.

In VIP configuration this MD-83 Air Charter offers all leather first class seats for up to 68 passengers and has flying range of more than 5 hours. For extra comfort, this aircraft has 75 inches of leg room for the first 12 VVIP seats; there are 40 additional VIP seats with 51 inches of leg room plus 4 table stations with First Class Club Seating.

Equipped with a hot/cold galley, this aircraft has the ability to accommodate VIP catering. This aircraft is set to offer in seat power for client devices like computers, music players and video players.

### Specifications include:
